A MEMBERSHIP FULL OF BENEFITS

Consider joining and become a member of the International Society for Extremophiles

The International Society for Extremophiles (**ISE**) invites scientists from all over the world to join the club and to actively support the aims of the society.

Membership will be rewarded by a number of benefits which include:

- First hand information and exchange of experience between colleagues in all fields of extremophiles research
- Reduced subscription fee for the Extremophiles Journal
- Free newsletter
- Reduced admittance fee for Extremophiles and Biocat Congresses
- Scientific summer courses
- Scholarships and travel grants for young scientists

ANNUAL MEMBERSHIP FEE

Membership dues indicated below shall be paid every year to the **ISE** office. Payments (Europe yen only) must be made by credit card. Because of high banking charges, bank drafts drawn on your local bank cannot be accepted.

WELCOME TO THE INTERNATIONAL SOCIETY F0R EXTREMOPHILES.

Dear colleague,

The International Society for Extremophiles (**ISE**) is a community of scientists who dedicate their research to the fascinating world of extremophilic microorganisms.

Research on extremophiles gives us a better understanding of nature's diversity and opens up a broad range of industrial applications.
Scientists from all over the world contribute to this rapidly growing field of research in terms of basic and applied research.

I cordially invite you to apply for membership and to take advantage of the **ISE** member benefits which include

- Reduced subscription fee for Springer's Extremophiles journal
- **ISE** Newsletter
- Special conditions for Extremophiles and Biocat conferences
- Scholarships for Ph.D. students

Consider joining and become a part of the international family of extremophiles researchers.

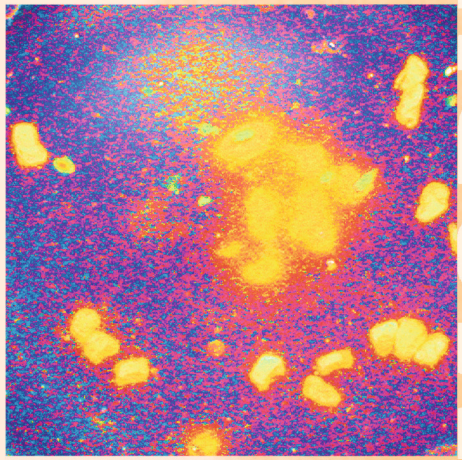

Yours,

Prof. Dr. Antonio Ventosa
ISE President

THE INTERNATIONAL SOCIETY FOR EXTREMOPHILES

LIFE UNDER EXTREME ENVIRONMENTS

EXTREMOPHILES

MEMBERSHIP APPLICATION

INTERNATIONAL SOCIETY FOR EXTREMOPHILES

The International Society for Extremophiles (**ISE**) was founded at the initiative of the members of the Editorial Board of the Extremophiles Journal in 2002. The **ISE** is intended to be a forum for the exchange of information and experience in the rapidly growing field of research on extremophiles. The main objectives of the society comprise:

- Support of scientists who dedicate their research to the investigation of extremophilic microorganisms and their enzymes for basic and applied research
- Creating benefits for the **ISE** members including reduced subscription fees for the Extremophiles Journal which is the official journal of the **ISE**
- Support of the local organizers of the biennial Extremophiles conferences
- Scholarships and travel grants for young scientists

MEETINGS

ISE meetings will be held during the biennial Extremophiles conferences

JOURNAL AND NEWSLETTER

The Society's official journal is "Extremophiles" published by Springer-Verlag, Tokyo. The Society also publishes Newsletters which are available for download at the **ISE** homepage.

AWARDS

The International Society for Extremophiles honors outstanding contributions to the field of research on extremophiles. Awards will be given to talented scientists who open up new frontiers in terms of basic and applied research.
Eligible persons can be nominated by all ordinary members of the society and will be selected by a jury chaired by the **ISE** president. The award ceremony takes place during the biennial Extremophiles conferences.
